We present herewith our 1953 List of Orchid plants covering a fine selection for both the Amateur and Commercial grower.

Our business during the past season was most gratifying and to those whom we had the pleasure of serving, we wish to express our most sincere thanks.

To those whom we have not as yet had the pleasure of serving, may we suggest a sample order to see the fine plants we are growing. An entirely automatic system of greenhouses with subsequent low overhead make possible these lower prices.

When in the neighborhood you are cordially invited to stop in and see for yourself. Saturday and Sunday by appointment only.
